Title: Trade Statistics

Author: Ch'en Shan-lin (陳善林)

Publisher: Li-hsin Kuai-chi Yung-pin-she, Shanghai, April 1952

Sponsor or

Issuing Authority: None indicated

No Pages: 150

Language: Chinese

Area of Coverage: China

Subjects Covered: Preparation of statistics for commodity turnover; receiving, shipment, and storage of goods; commodity price index; commodity turnover; labor costs in trading and the trading network

Review: Discusses at length statistical practice with special emphasis on state trading activities. Many examples are taken from trading activities of various offices of the Central People's Government of China. References given include three books on this subject published in the USSR in 1947-48.
